- A hardware system designed for motorization
- Quiet motors and finished shades
- Low light gap bracketry
- No physical operating cords.
- Child and pet safe environment.
- Roller, Zebra & Roman Shade compatibility

Automate™ PULSE 2 Hub/Bridge

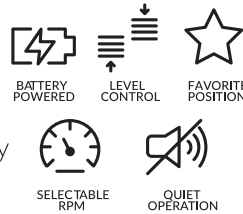

The Automate™ PULSE 2 Hub/Bridge provides the heartbeat of the Automate™ smart home experience.

With wi-fi built in, simply plug the device in where convenient and connect it to the local wireless network.

Once connected, Automate™ shades can then be controlled from your smart phone/tablet or integrated within a whole home control system.

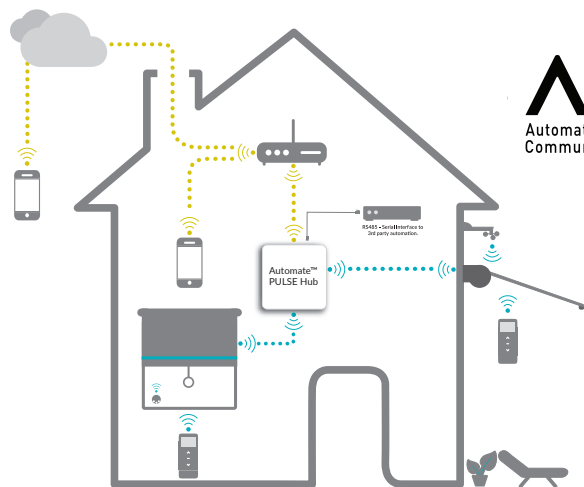

Automate™ Li-ion Battery Powered

Automate™ Li-ion battery powered motorized shades are a perfect retro-fit for existing homes or small commercial projects and require no electrical wiring, no external battery pack and no complicated installation.

Automate™ Mobile App

A simple and intuitive shade control system for your smart phone or tablet with advanced configuration features including scheduling and remote access.

Reliable and Secure Communication Between Connected Devices

Automate™ Motorization utilizes a new Radio Frequency platform called "Automate™ Radio Communication" also known as ARC.

The ARC communication protocol utilizes a 433MHz radio frequency, well known for strong, reliable communication in the connected home devices space.

Automate™ ARC protocol also features bi-directional communications, which empowers users and connected systems to experience shade control like never before.

The ARC communication protocol ensures Automate™ equipped motorized shades are reliable and easy to use... paving the way for the window coverings of tomorrow's smart home.
